THE PREMIUM PAN-INDIA PROCESS ENGINEERING EVENT PAR EXCELLENCE

IPEC

(INDIA PROCESS EXPO & CONFERENCE)

elevating transformative engineering

18 19 20 | AUG | 2022
HITEX, Hyderabad

Concurrent Show

AS GOOD AS YOUR PROCESS CAN GET!

THE EXPO

Bringing the best in the business to the fore

India Process Expo & Conference is the country's finest platform for the machinery and equipment manufacturers as well as service providers to showcase their technological superiority/latest innovations to the Pan India audience from the various core sector industries like Steel, Cement, Power, Oil & Gas, Minerals, Chemical, etc. It is held as a concurrent show alongside HIMTEX (Hyderabad International Machine Tools Exhibition). www.himtex.in

In today's scenario of multiple production lines, there is an exigent need for cost-effective and technologically advanced/innovative solutions to achieve production efficiency and increased profitability, which has created a huge opportunity for the national and global players in this industry to foray into the huge Indian market.

THE CONFERENCE:

A stimulating conclave of industry leaders and domain experts

The objective of India Process Expo & Conference is to provide a platform for the solution providers to interact on new-age technologies for productivity enhancement with the process engineering community from various core industries.

Aiming to play an integral and catalytic role in transforming the process engineering landscape of the Core Sectors in India, the event is designed to provide a comprehensive knowledge sharing and business matching platform for the process Industry of India. Industry captains and domain experts are invited to share their insights and narrate successful case studies, encompassing the current industry practices and trends.

The relevant topics we envisage are

- Productivity Enhancement and Process Optimization in all the core sectors
- Total Quality Management (TQM)
- Efficient Utilization of Oil, Gas and Power
- Best Mining Practices and Safety Procedures
- Industrial Engineering and Sustainability Issues
- Maintenance of Power Transformers
- Energy Efficiency and Power Optimization
- Equipment Health Monitoring
- Energy Conservation Equipment / Devices
- Energy Efficient Lighting Controls
- Environmental Management / Pollution control
- Advanced Harmonic Filtering Solutions
- Value Engineering & Logistics
- Alternate Fuels & Waste Heat Recovery
- Human Resources Development
- Lean and Green etc.,

THE DOMAIN CHECK: Knowing who it suits the best

Exhibitor Profile

Participants can be from all companies and institutions that provide products or services (apparatus, plant, components, processes, services) in the field of the processing industries.

ENGINEERING

- Production units
- Catalysts, reactors and technology
- Software
- Wastewater and waste gas treatment,
- Process Intelligence

MECHANICAL PROCESSES

- Plant, apparatus, machines and equipment and technology

THERMAL PROCESSES

- Plant, apparatus, machines, equipment
- Bio-product manufacturing, Synthetic fibre processes
- Power generation, heat pumps, heat transfer and insulation systems
- Cleanroom
- Energy storage & Battery

INSTRUMENTATION, CONTROL & AUTOMATION

- Industrial measurement and control equipment
- Systems for automatic control and monitoring of operations and processes
- Data processing
- Analytical apparatus
- Electrical engineering, equipment and components
- Industrial intelligence & Data

PHARMACEUTICAL

- Apparatus and machinery for dosing, moulding, filling, sealing, packing, labelling and inspection
- Transportation and storage systems
- Supply chain management

INDUSTRIAL LABORATORY

- Equipment, chemicals and services for R&D
- Analysis, Testing kits
- Service providers for the biotechnology sector
- Laboratory information and management systems (LIMS)

PUMPS, COMPRESSORS, VALVES & FITTINGS

- Pumps, Valves, compressors, fittings, pipelines, seals and packing
- Cleaning equipment

MATERIALS, TECHNOLOGY & TESTING

- Metallic and non-metallic materials and composites
- Measurements, analysis, NDT, testing, QA in Operations

INDUSTRIAL SAFETY

- Equipment and aids

VALUE ENGINEERING SERVICES

- Energy efficiency
- Alternative processes
- Capacity optimization

Visitor Profile

Process Technologists & Engineers, Procurement Managers, QC Managers, Technicians, Key Stakeholders, Key Decision Makers from Govt. & Pvt. Sectors, Researchers, Developers etc from the below industrial sectors:

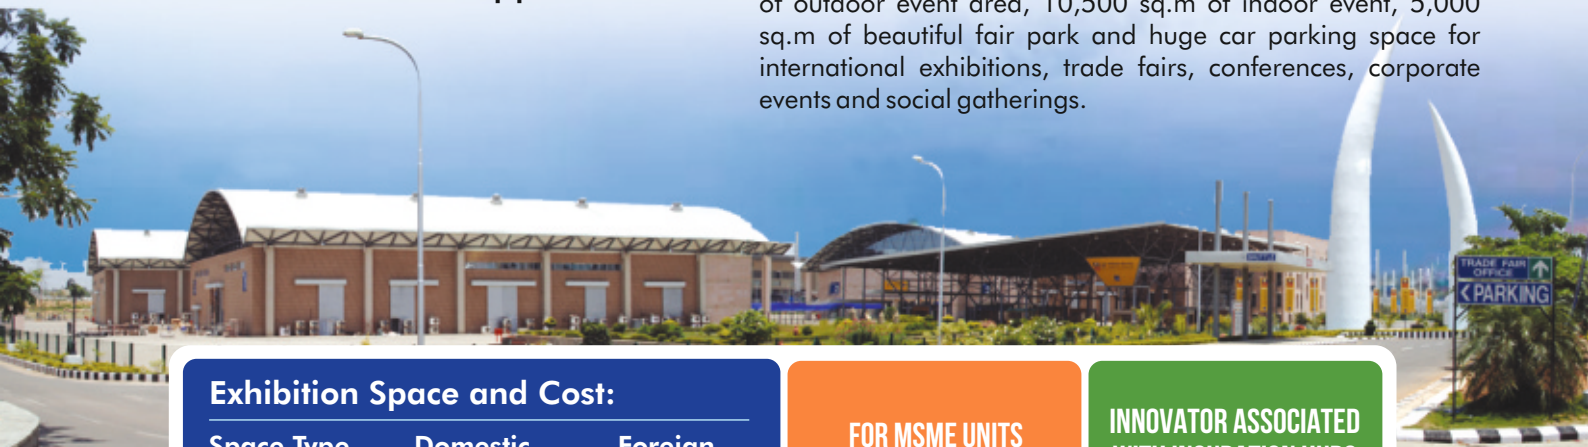

- Biotechnology
- Chemical
- Fertilizers
- Pharmaceutical
- Food & Agro processing
- Cement
- Water & Industrial Water Treatment
- Petrochemical
- Mining
- Pulp & Paper
- Steel

GLIMPSES OF PAST EDITIONS

THE VENUE: A window to a world of opportunities

HITEX is a multipurpose venue in 53 acres of prime land in the highly coveted locality of Hyderabad comprising 30,000 sq.m of outdoor event area, 10,500 sq.m of indoor event, 5,000 sq.m of beautiful fair park and huge car parking space for international exhibitions, trade fairs, conferences, corporate events and social gatherings.

Exhibition Space and Cost:

Space Type	Domestic	Foreign
Shell Space	₹ 8000 / sqmt	\$ 200 / sqmt
Raw Space	₹ 7000 / sqmt	\$ 180 / sqmt

FOR MSME UNITS

Shell ₹ 7000 / sqmt
Raw ₹ 6000 / sqmt

INNOVATOR ASSOCIATED WITH INCUBATION HUBS

for a 4 sqmt Stall
₹ 20000

*Taxes extra as applicable.
